

# Successful Forest County Business for Sale

## GRAVITTER PLUMBING & HEATING (MEG P&H LLC)

Owners: Michael and Sandra Gravitter

501 W. Lincoln Street, Crandon, WI 54520

715-478-2284

715-889-2141

We are a plumbing and heating business that was originally started in 1952 by Michael's father, John Gravitter. During the time he was in business, he sold Lennox furnaces for 25 of those years. In 1981 he was forced into retirement because of health reasons and at that time Michael took over the business. He re-established a relationship with Lennox and has been a Lennox dealer ever since.

Gravitter Plumbing & Heating is primarily a plumbing and heating business. Michael has a master plumbers' license and has trained two apprentice/journeyman plumbers over the years he has been in business.

We built a new high efficiency 6,000 square foot shop with office area and retail showroom with solar electric in 1987 at the edge of Crandon. The shop is a full sheetmetal shop. There is an additional 30' x 24' warehouse next to the shop. We have two service vehicles.

We have been innovative in that we have sold high-efficiency furnaces since 1992. We also sell, service and install outdoor wood boilers, solar systems, gas generators and gas and wood fireplaces/stoves. Along with the heating portion we also do plumbing which consists of selling, servicing and installing waterheaters, pumps, plumbing fixtures and whole-house plumbing, well systems and septic systems.

Some of the larger commercial jobs in the area that we have done are: CoVantage Credit Union/plumbing; Crandon Public Library/plumbing; Crandon Post Office/plumbing and heating; Crandon Rescue squad/plumbing and heating along with taking care of residential and light commercial work in mainly the Forest County.

If you have any questions please contact GRAVITTER PLUMBING & HEATING or FCEDP.
